THE first regular meeting of the Edmonton public school board in this year took place yesterday afternoon in the town hall. All the members were present. M. McCauley was elected chairman for the year. Messrs. McDougall, Bellamy and McDonald were appointed a special committee to look into the question of school attendance.

ARRANGEMENTS are being made whereby curlers will have the opportunity of enjoying their favorite game this winter yet. The lessees of the skating rink are willing to sub-let the rink to the curlers for three afternoons per week and it is likely that the offer will be accepted. The arrangement will take effect next week. The expense will be very light, especially in comparison with other seasons.

THE Northwest Gazette of January 2nd contains a proclamation erecting twenty new school districts, of which nineteen are Protestant and one Roman Catholic. The first of these is Beaver Hills public school district, No. 246, and the trustees are Albert Peebles, John Whitson and Alex. Adamson. The nineteenth is Wetaskiwin public school district, No. 264, of which the trustees are John West, Albert Norman and G. W. Gould. G. A. GOVIN, of Calgary, who conducted the auction sale of H. T. Martin's furs, on Friday and Saturday of last week, was brought before Mayor McCauley on Monday evening charged with having sold contrary to the town by-law, not having taken out a hawkers license. P. L. McNamara appeared for the prosecution. Mr. Govin claimed that as he held an auctioneer's license for the Territories he was entitled to sell by auction without taking out a town license. Mr. McNamara pointed out that in selling as Mr. Govin did he came under the definition of hawkers, which required him to take out a town license. The defendant was fined \$5, the amount of the hawkers license, and costs. Fine and costs were paid.

ANNUAL meeting of the Edmonton agricultural society for the winding up of last year's business and the election of officers for the current year, on Saturday, January 14th, in Robertson's hall.

J. Israel Tarte, who has just been elected M.P. for L'Islet, Quebec, in his manifesto advocated reform in the tariff and free access to the American markets for Canadian farm products. He declares that his aim, if elected, will be to secure separate schools for the Roman Catholic minority in Manitoba. He also promises to call the attention of the House of Commons to the conduct of certain judges, whose acts have been contrary to their oath of office and explains the hatred of some of his former political friends by calling to mind his successful campaign against the bootling operations at Ottawa. After reciting what has been done in the party, Tarte winds up as follows: "The ministers and those who feed at their manger are making strenuous efforts to prevent my election. They prefer to have in the house flexible and pliant men, always ready to vote for them, to approve everything and to swallow up everything. They are afraid of investigations and of new revelations that would show that in our country there exists a system of public dissoluteness and corruption quite as terrible as the one that has just been enearthed in France in the Panama affair. In France \$4,000,000 were expended to buy up ministers, members of the chamber, judges and journalists. A similar organization is in operation here. In France the people have just taken their own cause in hand. I ask you to follow their example."

An election bill has passed the New Zealand parliament permitting voting by mail and granting the franchise to women.

## PROROGATION SPEECH.

The following is the speech with which lieutenant-governor Royal closed the Northwest assembly:

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

The business of the present session being now completed, I have much pleasure in relieving you from further attendance at your legislative duties.

Your legislation has, as in the past, been of an eminently practical character and will, no doubt, tend to materially promote the welfare of the community. I feel confident that my relations with the representatives appointed by you to advise me in matters of finance will be of the most cordial nature. I shall deem it my duty to give careful consideration to their advice in relation to the expenditure of public monies in the manner determined by you for the carrying on of the public service. As I believe that the fulfilment of your intentions in this respect will be best effected by the adoption of certain rules governing the method of expenditure, I shall consider it my duty to see that satisfactory rules are prescribed and strictly observed.

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

As you are now about to return to your several homes allow me to convey to you my best wishes for your personal welfare and for the prosperity of the various districts which you represent in this assembly.

A correspondent of the Moosomin Spectator says that the C. P. R. have sold \$60,000 worth of town lots in Estevan. The output of the Dominion coal company at Estevan is 130 tons per day. There are besides the Black Diamond and Ruby mines working there, and the Russell and Hassard mines, fifteen miles south, where 75 men are employed. From this mine the coal has to be hauled six miles to the railway.

The Regina Standard says that Senator Perley has been appointed commissioner for the Territories to the World's Fair at Chicago.

Dr. Dodd, assistant surgeon of the mounted police, died suddenly at Maple Creek on New Year's morning.

The Regina Standard says that scarlet fever prevails in several towns in the Territories.

The Silver King mine of East Kootenay, B. C., has been sold to a Scotch syndicate for \$1,800,000.

Lethbridge News: "The much looked for chinook got here at last on Saturday and to-day the prairie is completely bare of snow. This has made the stockmen rejoice as the cattle were getting in a very bad state, being unable to get anything to eat, through the snow being so deep and crusted."

The Lethbridge News mentions that although there is direct railway communication between Lethbridge and Great Falls a letter passing from one of these towns to the other has to travel by way of Winnipeg, some 2,000 miles. Also that the mail route between Lethbridge and Macleod, 30 miles apart, is to be withdrawn so the letters passing between these towns must go around by Calgary.

Free Press: "Father Lacombe, the veteran missionary worker, left last night for Quebec, where he will remain two months. One of the objects of his trip is to fetch up a number of nurses for the new hospital which is being erected on the Belly river in the Blood reserve. This is the first institution of its kind ever erected in North America, and was built by the Dominion government for the Catholic missionaries and the Indians of that reserve. It will be opened in a few weeks."

### IMMIGRATION VS. CHOLERA.

Everyone knows that what the Northwest needs to make it great is population and almost everyone looks to immigration as the means whereby, through rapid increase of population, this greatness is to be achieved. Consequently everything that tends towards inducing or increasing immigration is well received and favorably considered by the great majority of the people of these Territories and of Canada. At the same time it is a well-known fact that the immigration policy pursued by the Canadian government for the past twenty years has been—to put it mildly—a farce and a failure. This fact seems to have, at least, begun to dawn on the minds of the Ottawa authorities and the cry has gone forth for a changed and more vigorous immigration policy. This is very good, as far as it goes. Energy based on knowledge is good and useful; but energy based on ignorance is vastly more dangerous than simple inactivity. Judging from the rumors from time to time appearing as to the nature of the policy likely to be pursued, ignorance still rules by a large majority in the immigration department. In the face of the known existence of cholera in many parts of continental Europe, and its particularly virulent and continued existence in Hamburg, the chief port from which continental European immigrants came, it would appear that our authorities propose to use every exertion to secure immigrants for the Northwest from the infected districts, coming through the infected port, for distribution throughout the Northwest. If this policy is put into effect, or indeed if the very opposite policy of complete exclusion of all probably infected persons, is not energetically enforced, only one result is possible and that is that cholera, will be spread all over these Territories, with what result may be imagined, not only in regard to present loss of life but in regard to future immigration. The Northwest is above everything else a healthy country. This is one of its greatest recommendations to the intelligent immigrant—the only kind that is beneficial or desirable—and as a matter of policy, to say nothing of any other feature of the case, it would be better to totally prohibit European immigration for a season rather than have a fatal disease spread through its every part. No matter how the cholera may rage in Europe or in the more congested parts of America, the Northwest, owing to its sparse population and superior healthfulness of climate, can be kept free from it. And this is the first duty of our authorities. It would cost more money to fight the cholera if it once obtains a foothold than ten years immigration to a cholera infected country, as this would be set down to be, would be worth. The newspapers of the Northwest have a serious duty to perform in this matter and should not fail to unanimously and strongly press upon the attention of the Ottawa authorities the absolute necessity of keeping out the cholera even at the loss of a season's immigration.

## THE MANITOBA SCHOOL QUESTION,

The sub-committee, to whom was referred the Manitoba school case, made a report to His Excellency, which has been adopted by the governor-in-council. The report says: As to the request which the petitioners make in the second paragraph of their prayer, viz., "That it may be declared that said acts (53 Vic., 37 and 38) do prejudicially affect rights and privileges with regard to denominational schools which the Roman Catholics had by law or practice in the province of Manitoba at the time of the Union"; the sub-committee are of opinion that the judgment of the judicial committee is conclusive as to the rights with regard to denominational schools which the Roman Catholics had at the time of the Union, and as to the bearing thereon of the statutes complained of, and Your Excellency is not therefore, in the opinion of the sub-committee, properly called upon to hear the appeal based on these grounds. Therefore, if redress is sought on account of the state of affairs existing in the province at the time of the union it must be sought elsewhere and by other means than by way of appeal under sections of the British North America act and the Manitoba act, which are relied on by the petitioners as sustaining this appeal.

The two acts of 1890 complained of must, according to the opinion of the sub-committee, be regarded as within the power of the legislature of Manitoba, but it remains to be considered whether an appeal should be entertained and heard as an appeal against the statutes which are alleged to have encroached on the rights or privileges with regard to denominational schools which were acquired by any class of persons in Manitoba not at the time of the union but after the union. In the opinion of the sub-committee the application is not to be dealt with at present as a matter of political character or involving political action on the part of Your Excellency's advisers. It should be dealt with by Your Excellency in council regardless of the personal views which Your Excellency's advisers may hold with regard to denominational schools, and without political action of any of the members of Your Excellency's council being considered as pledged by the fact of this appeal being entertained and heard. If the contention of the petitioners be correct that such an appeal can be entertained the enquiry will be rather of a judicial than of a political character, and the sub-committee have so treated it in hearing counsel and in permitting their only meeting to be open to the public.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my work and prices in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern states for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders.

# STOCK IN GOOD CONDITION. Medicine Hat Times.

About the worst scare the stockmen of the Canadian Northwest have have since '86-'87, was the unprecedented cold, stormy weather of the early part of this winter, which fortunately was succeeded last week by warm springlike weather. This, with the heavy Chinook wind of Monday and Tuesday has cleared every vestige of snow from the bench lands and made grazing as free as in midsummer. The severe weather which began about the middle of November, was accompanied by storms and heavy falls of snow, which, combined with a ground crust, made grazing very difficult, especially for sheep. The storms too, had filled the ravines and creek bottoms with snow, rendering inaccessible much of the hay which remained stacked in the hay meadows owing to the early closing of winter. Indeed such was the demand for feed towards the end of last month, that hay went up to \$20 a ton, and at that figure it could not be got in large quantities. The advent of fine weather has caused it to drop again to the normal value. But notwithstanding the cold and stormy weather and deep snow, stock of all kinds seem to have remained in fair condition; the mortality, which was confined entirely to weak cattle and very young calves, being very light indeed, scarcely reaching one-half of one per cent. Horses and sheep, for different reasons, came through all right. It is a well-known fact that horses can graze in very deep snow, their fore feet being used to clear it away. Sheep on the other hand do not manage well where there is much snow, but owing to the fact that they are kept together in bands, under the control of shepherds, they can be herded on bottoms where the snow can be cleared off with the plow, or if necessary they can be fed. With cattle it is different. Except with small bands it is impossible to hold them together, every storm causing them to drift before it, so that it is next to impossible for large cattle owners to even attempt to feed their stock.

### BIRTH.

BECK—At Edmonton, on Monday, the 9th inst., the wife of N. D. Beck, advocate, of a son.

Regina Standard: "The bill introduced by Mr. Wilkins for the incorporation and protection of Wood-butchers was a suitable parody on some of the legislation and attempted legislation of the session. The granting of special legislation for the benefit of pettifoggers, bone-sawyers, tooth-pullers and horse-killers, is altogether too premature in this country. Much of what can be said in favor of the legal organization of the professions in the thickly populated provinces, does not apply to this country of vast distances and sparse population."

The Toronto Evening News, conservative, replies thus to an attack made by the Empire on Dalton McCarthy for his anti-national policy utterances: "The policy thus doubted has reached the limit of its usefulness and ought to be modified and will be modified. Newspapers and politicians may try to keep the conservative party together by draping the Union Jack over the tomb of Sir John A. Macdonald and calling upon the people to fall down and worship, but that kind of thing will not work to all eternity. A live man is better than a dead hero any day, and this country wants a live man who knows a live issue when he sees it. If the conservative party is always going to follow the voice from the tomb, to the tomb they will go, for the people will certainly bury them."
